Graduate Survey - Class of 2017 Survey Methodology

The 236 students graduating from Westminster College between December 2016 and August 2017 were surveyed through a series of email mailings beginning in January and running through May 2017. LinkedIn, faculty outreach and phone calls were also utilized to gather information on graduates who did not respond to emails. The combined methods resulted in a total of 188 responses, or a knowledge rate of 80% of the surveyed population.
